COURSE CONTENT

A 5-day course of hands-on with real patients

This 5-day hands-on training equips general practitioners with the skills to perform third molar extractions confidently. Through didactic sessions, live demonstrations, and supervised clinical practice, participants will master surgical techniques such as flap design, bone removal, and odontosection.

Key topics include patient assessment, imaging interpretation, complication management, and postoperative care. Attendees will gain real-world experience by performing extractions on live patients under expert supervision.

Upon completion, participants will confidently manage simple and complex cases, earning a certificate recognizing their advanced clinical training.

LEARNING OBJECTIVES

- Assess patients for third molar extractions using diagnostic imaging.
- Perform surgical techniques such as flap design and bone removal.
- Manage complications like dry socket and infections.
- Practice suturing techniques for optimal wound closure.
- Build confidence through supervised hands-on training.

Course

Directors

Dr. Carlos Mourao

Dr. Carlos Mourão is an Assistant Professor at the Tufts University School of Dental Medicine. He is a Brazilian dental surgeon who obtained his DDS in 2005 and holds Brazilian certificates in Oral and Maxillofacial Surgery (OMFS), Implant Dentistry, and Oral Medicine. With over 15 years of experience in private practice, Dr. Mourão also served as a Lieutenant (Officer) in the Brazilian Navy as an Oral Surgeon from 2014 to 2019. In 2012, he earned a Master's degree in Surgical Sciences from the School of Medicine at the Federal University of Rio de Janeiro (UFRJ), gaining extensive experience in experimental research. He completed his Ph.D. in Dentistry at Fluminense Federal University (UFF) in 2017, focusing on clinical trials. Dr. Mourão further pursued post-doctoral research in Biotechnology at UFF from 2017 to 2022 and in Oral and Maxillofacial Surgery at UFF from 2018 to 2020. Dr. Mourão has published more than 170 indexed peer-reviewed articles.

Dr. Priscila Casado

As an Adjunct Professor at the Fluminense Federal University, she coordinates the Implant Dentistry Specialization Program and teaches in the Postgraduate Program in Dentistry (Doctorate and Master's levels). Her educational background includes a degree in Dentistry from UFF (2003), a specialization in Implant Dentistry, a Master's in Dentistry - Dental Clinics from UFF (2005), and a PhD in Morphological Sciences from the Federal University of Rio de Janeiro (2009). With comprehensive academic and clinical experience, she is dedicated to advancing the field of periodontics and implant dentistry through innovative research, specialized training programs, and collaborative projects.

Where is our course held?

Federal Fluminense University
Rio de Janeiro - Brazil

The Fluminense Federal University School of Dentistry, located in Niterói, Rio de Janeiro, Brazil, is a prestigious institution known for its excellence in dental education and research. It offers comprehensive undergraduate and postgraduate programs, including specializations, master's, and doctoral degrees. Renowned for its state-of-the-art facilities and experienced faculty, the school emphasizes innovation in fields like periodontics, implant dentistry, and oral surgery. It also plays a significant role in community outreach, providing quality dental care to underserved populations.

Not only is it an ideal location for conducting oral surgery classes, but the training will also have an added social aspect: all practical cases will be free for patients due to the high demand for treatments among the population.

- **Date: February 3 - 7, 2025**
- **Hours: 8:30 am - 6 pm**
- **Investment: US\$ 8,600**
